Z-Chair

Footstool

Sofa / Love Seat

Timber Species

English Oak

A beautiful open grained timber that resonates texture while remaining very durable and heavy. When ebonised the deep grain becomes even more pronounced giving a unique surface composition.

American Black Walnut

The heartwood of American Walnut is a beautiful light to dark brown occasionally with a purplish cast and darker streaks. Another great timber for Ebonising, the tight grain structure leaves a silky deep black glass like surface.

Reclaimed Teak

A beautiful golden or medium brown colour darkening with age. Our reclaimed teak is comparable to that of the original timber used for these iconic mid century chairs.

Iroko

Similar in terms of colour to Teak once exposed to sunlight. An interlocking grain with a fairly coarse texture responds beautifully to a satin oil finish.

European Beech

Beech is pale brown/pink with the occasional reddish streak. A very heavy and dense hardwood that is widely used in furniture making. We love the contrast between beech and walnut when mixing species.

American Maple

Nearly white, to an off-white cream colour, an extremely heavy and dense close grain timber. When paired with an acrylic varnish you are left with a non-yellowing off white glossy surface.

Mixed Species

We also offer a mixed species design where two contrasting woods can be laminated together to give a unique look. Take a look at our previous work to see more!

Other species available at request

English Cherry, American Cherry, English Walnut

Finishes

Hard Wax Oil

Hard wax Oil is a protective wood treatment for interior use. Combines natural oils and waxes to form a hard wearing and durable finish which is ideal for wooden flooring and furniture. The oil provides a warm and rich effect that brings out the true beauty of all woods by emphasising the grain and promoting its natural characteristics.

Ebonising

Ebonising is a process for darkening wood, giving it an appearance similar to ebony, hence the name. It is particularly used for pianos and fine furniture or where a rich black colour is desired. Ebonising works best on timber species with a high tannin content like Oak or Walnut.

Application

Our hard wax oil is hand rubbed onto the surface of the wood, applying it this way lightly abrades the surface resulting in smoother unblemished final finish. Two coats of oil are applied as per the manufactures instructions.

Cushions

Upholsterer

We can supply the chair frames and footstools on their own or with bespoke cushions tailored to your exact requirements. Talk to us about your design requirements and we can pass your ideas to our local upholsterer who will hand make each individual cushion to your own specification.

Fabrics

When choosing your fabric we recommend visiting your local fabric shops, upholsterers or ordering sample fabric online. Once you have the name of the fabric you have selected we can order it in and pass it onto the upholsterer.

Fabric per chair cushion: 1m of 1600mm wide. - Fabric per footstool cushion: 2m of 1600mm wide.

Additions

Cushions can be furnished with buttons, piping, contrasting piping, panel stitching and more. Please take a look at our previous work to see more.

Ordering

1. Choose your wood species

We offer a wide range of timber species to choose from each with their own characteristics.

If you have any questions with regards to timber selection please contact us and we will be happy to help.

2. Choose your finish

We use a satin oil finish for our furniture which results in a beautiful natural looking surface.

We can also offer a matt oil if required. When choosing either English Oak or American Black Walnut you can opt for an ebonised finish which darkens the surface to a deep rich black colour. This will then be overlaid with a satin oil.

3. Choose your fabric

When choosing your fabric we recommend visiting your local fabric shops, upholsters or ordering sample fabric online.

Once you have the name of the fabric you have selected we can order it in for you.

4. Choose your cushion style

Cushions can be furnished with buttons, piping, contrasting piping, panel stitching and more.

Please take a look at our previous work to see more or if you have a photo of an existing style you like please let us know.

5. Place your order

Orders can be placed via our website at www.SkinnerDesigns.co.uk/Z-Chair.

Alternately you can email or call us with any further questions before placing your order.

6. Lead time & delivery

It usually takes approximately 2-4 months to complete a pair of Z-Chairs and we will update you along the way.

Delivery options will have been discussed and confirmed when the chairs are first ordered and we will then update you when they are ready to ship.

Need help with your order?

If you require any help with any aspect of the ordering process we are here to help you.

Please send us an email or if you prefer a phone call either send us an email or text asking for more information about our z chairs, we will organise a phone call with you for a particular time.

Delivery & further information

Delivery

Depending on location we will look at the best options for delivery. Delivery is not included in the price of the chairs.

Delivery will usually be via pallet. Please contact us for a delivery quote.

Lead time

It usually takes approximately 2-4 months to complete a pair of Z-Chairs and we will update you along the way.

Payment

A 50% deposit is required before any work begins.

Final payment is due on completion of the chairs.

Cleaning & maintaining

The chair frames can be wiped down with a microfibre cloth using either furniture polish to remove dust

or a weak detergent for tougher marks.

Love-seat custom length

We can offer our love-seat at any required length, please contact us for a quote.

Jamie at Skinner Designs

Jamie has always had a love for carpentry and could often be found playing with tools and a toy work bench from the age of three! Jamie is a maker at heart and loves nothing more than being creative and designing new products.

Early in 2016 Jamie began a journey starting his own business primarily focusing on End Grain Chopping Boards. Starting with just a few items listed on his small Etsy Store; Jamie now has his own website with as many as one hundred boards available as well as made to order options. Skinner Designs has now expanded into high end furniture and more!
